EPA-R7-2013-007864 – Pat, this is the request you asked me to assign a new task for SUPR after the last one was accidentally closed. I am assigning a new task now.

EPA-R7-2013-007849 – This was closed by Pat on July 9<sup>th</sup>. Should I assign another task for this request?

Thanks!

Pat, Emily, I have received a formal notification (yellow paper copy) of the 7858 FOIA below but not the other two. Where are they?

Daniel R. Gravatt, PG  
US EPA Region 7 SUPR/MOKS

EPA-R7-2013-007858 – This is another NRRB request. Since all regions may have responsive materials, let me know how you want me to proceed. The options are: respond for R7 and inform the requestor they need to submit with all other regions & HQ; transfer to HQ and ask them to coordinate; or, R7 coordinate the entire agency's response.

EPA-R7-2013-007864 – Wants responsive records for radioactive testing for several St. Louis Co. sites.

EPA-R7-2013-007849 – From Dawn Chapman requesting “[...] soil, air tests in and around the Rose Acres school by EPA in 63043 zip code from 1985-1990. Any tests that were done is the residential neighborhood and Pattonville school district from this time frame.”
